Hibernate

JavaScript

J2EE

Data Science

MS Azure

Git & Github

Wordpress

MS Excel

PERSONAL PROJECTS

Virtual Mouse using Hand Gesture

- Developed a Virtual Mouse as part of a Project-Based Learning initiative using Python and key libraries such as OpenCV and Mediapipe. The project focused on enabling non-contact human-computer interaction through hand gestures.

Bank Management System

- Designed and implemented a robust Bank Management System application using HTML, CSS, JavaScript, and MySQL. This project involved the integration of front-end technologies for an intuitive user interface, back-end scripting for seamless functionality, and database management using MySQL.

CERTIFICATES

Secure a 1st position in PBL Exhibition (Valedictory Function)
